

The Future of Customer Calls Is Here – And It Never Sleeps

ADOPLA AI
Empowering AI-driven automation.

AI-Powered Telecalling Agent that Works 24/7, Speaks Every Language, and Closes Every Loop.

Smarter Calls. Zero Burnout. Real Results.

W h a t

LLM-Powered Intelligence

Powered by Large Language Models (LLMs) with real-time knowledge retrieval — the agent understands customer queries and responds accurately using your own knowledge base.

S e a m l e s s

Integrated with Zoho CRM and Google Calendar out of the box. Every call outcome is auto-logged and every appointment is booked live on the call — no human intervention required.

M u l t i l i n g u a l - G r a d e

Supports multiple languages for diverse customer bases and is built on enterprise-grade Twilio telephony infrastructure for rock-solid reliability at any call volume.

I n f i n i t e

Handles hundreds of simultaneous calls with zero drop in quality — qualifying leads, scheduling appointments, sending reminders, and updating CRM records autonomously.

24/7

An intelligent voice-based AI agent that autonomously handles inbound and outbound calls — qualifying leads, scheduling appointments, sending reminders, updating CRM records, and engaging customers — all without a human on the line.

Y o u r I t '

– A n d

Every day, businesses lose money, leads, and customers because of the limitations of human-only call operations.

O n e

Agents can only handle one call at a time, creating queues and frustrating customers.

A f t e r h o u r s

Calls go unanswered after working hours — every missed call is a lead handed to a competitor.

Agent Burnout

High burnout from repetitive outbound calling leads to inconsistent quality and high attrition.

C R M

Manual CRM updates lead to data errors, missed follow-ups, and lost revenue opportunities.

S c a l i n g

Scaling means higher salaries, training costs, and attrition — a never-ending cycle of spend.

The cost of doing nothing is greater than the cost of switching.

One Agent. Infinite Calls. Zero Compromise.

A l w a y s

Answers and places calls 24 hours a day, 7 days a week with no queue and unlimited concurrent calls.

Auto CRM & Calendar Sync

Auto-updates Zoho CRM after every interaction and books appointments directly into Google Calendar live on the call.

M u l t i l i n g u a l

Responds in multiple languages without extra setup, eliminating language-barrier drop-offs entirely.

K n o w l e d g e B a s e A c c u r a c y

Uses your own knowledge base to answer customer queries accurately — fully guided onboarding, no technical team required.

U n l i m i t e d C a l l s

No queue. No waiting. Hundreds of calls handled simultaneously at the same quality level.

Instant Outbound Automation

Automated lead follow-up, appointment reminders, and campaign calls — on schedule, at scale.

Z e r o

Fully guided onboarding — our team handles everything. No coding. No IT team required.

R A G

Retrieval-Augmented Generation ensures every answer is sourced from your own verified documents.

Plug It In. Watch It Work.

Step 1 Setup

Upload your knowledge base, configure call scripts, and connect Zoho CRM and Google Calendar. No coding — our team handles everything.

Step 2 Inbound

The AI agent answers instantly, understands the query using your knowledge base, resolves it — or escalates intelligently when needed.

Step 3 – Outbound Calling

Automatically dials customers for reminders, follow-ups, payment dues, or campaigns — at scale and on schedule.

Step 4 Live Sync

Every call outcome is logged in Zoho CRM and reflected in Google Calendar in real time — zero manual data entry.

Step 5 Continuous

The system improves with every interaction, getting sharper at handling edge cases using LLM fallback and updated knowledge bases.
